

INDEX AMENDMENT

This amended Research to the Trade Index has been taking place since publication in early 2006, and includes all known additions, amendments, deletions, and corrections. It has become clear, however, that the issue regarding 'Advertisement Cards' needs further amendment. I stated, under 'What is included...' in the original Introduction 'One-off advertising cards are generally recorded....'. But, over this period, I have been notified of a myriad of other cards which are not advertising products, including single events, theatre events, greetings, bazaars etc. The Society has discussed this issue, and agreed with the proposal I suggested that, as from now, such cards will no longer be included
